

Best Buy to expand electronics recycling nationwide

Jan. 26 -- Best Buy Co. Inc. will expand its electronics recycling program nationwide, Feb. 15.

Customers will be able to drop off up to two devices per day at any of the Minneapolis-based retailer's 1,006 stores throughout the United States. They will accept most consumer electronics, including televisions and monitors up to 32 inches, desktop computers, notebooks, videocassette recorders, DVD players and phones.

A \$10 recycling fee will apply to any unit with screens, such as televisions and computers. Customers instantly will receive a \$10 Best Buy gift card in exchange for the recycling fee. The fee does not apply in California or for any of Best Buy's exclusive-branded products, such as Insignia, Dynex and VPR Matrix. Appliances are not covered under the program.
