Energy companies host info meeting

By Staff

January 11, 2010 --

PINEDALE — Ultra, Shell and Questar, the leading energy companies in the Pinedale Anticline Project Area (PAPA), will present information about wildlife and habitat in the PAPA on Monday, Jan. 18, 5-7 p.m. at the Pinedale Library's Labyrinth Room.

Topics include ongoing wildlife studies, predictable operations within the development areas and mitigations such as directional drilling, liquids gathering systems (LGS) and reclamation techniques, as well as the Pinedale Anticline Mitigation and Monitoring Fund and the Pinedale Anticline Livestock and Agriculture Mitigation Fund.

Following the presentation, representatives from the companies will answer audience questions.

Refreshments and appetizers will be served. Email pinedaleanticline@gmail.com for more information.
