

## **Joint effort aims to increase electronics recycling, jobs**

Dec. 20 -- American Retroworks Inc. will celebrate the kick-off of its Mexican partnership with an electronics recycling event in Tucson, Ariz., Jan. 5.

Retroworks de Mexico is located in the Sonora region in Mexico and is a 50-50 joint venture between Middlebury, Vt.-based American Retroworks and a woman's cooperative. The goal of the partnership is to provide affordable electronic scrap recycling to residents of Mexico and Arizona while creating jobs for Mexicans in Mexico, said Robin Ingenthron, president of American Retroworks.

Any material sent to Retroworks de Mexico is 100-percent owned by American Retroworks, which is responsible for the electronic scrap.
